on Fundamental and Applied Quaternary  
I.F.A.Q.

**SEMINARS  
ON  
QUATERNARY  
DEPOSITS IN TECTONICALLY  
ACTIVE AREAS**

September, 19 - 29, 1990  
ATHENS - KALAMATA - CRETE  
(GREECE)

**TOPICS OF SEMINARS**

1. Quaternary Geology of Subtropic areas.
2. Desertification, long term and short term cycles.
3. Topics in Archaeogeology.
4. Quaternary and Environment.
5. Neotectonic evolution of the Eastern Mediterranean.
6. Application of Remote Sensing Techniques on Neotectonically Active areas.
7. Seismic and Active Faults.
8. Research methods in Tectonically Active areas.
9. Morphotectonics

MARIOLAKOS, I., LOGOS, E., LOZIOS, S., FOUNTOULIS, I., DANAMOS, G. (1990). - Description of the itinerary. In *Guidebook for Excursion for the "Seminars on Quaternary Deposits in Tectonically Active Areas"*. Αθήνα - Καλαμάτα - Κρήτη, 19 - 29 Σεπτεμβρίου 1990, p. 68-79.
